Significant development of connections to Portugal

Luxair Luxembourg Airlines and TAP Portugal have signed a new codeshare agreement (inter-airline agreement), which will come into effect as of 1st September 2017.

Luxair Luxembourg Airlines and TAP Portugal are extending and reinforcing their respective destination networks by signing a bilateral agreement. Both airlines will now cooperate on the **Luxembourg-Porto-Luxembourg** and **Luxembourg-Lisbon-Luxembourg** routes.

This cooperation means that customers will not only be able to benefit from significantly improved frequencies, flexibility and a wider choice of flights on these routes, but Luxair passengers will also be able to benefit from new destinations and flight combinations.

Luxair customers will therefore be able to easily travel to **Funchal, Lajes, Ponta Delgada and Faro from Lisbon** with TAP Portugal.

This airline partnership will come into effect as of 1st September 2017. Flights are already on sale! Flight frequencies and times are available on www.luxair.lu.
