Excellent results in a difficult context

Luxair Luxembourg Airlines & LuxairTours

In 2017, Luxair Luxembourg Airlines transported 7% more passengers, while LuxairTours recorded a 9% increase in passengers departing from Luxembourg. Almost 2 million passengers were transported in total. This increase is partly due to increased capacity, following the delivery of an additional Q400 aircraft. This is the 11th plane to join the Luxair fleet. New routes were also developed, whilst frequencies and products were adapted to meet our customers' requirements.
