Luxair signs partnership with Hotelbeds

## Luxair City Break – a new dynamic product for booking your dream holiday

Luxair Luxembourg Airlines has launched a new dynamic product called “Luxair City Break,” which allows you to pair flights with accommodation thus completing its range of online customer services.

In partnership with Hotelbeds, world leader in the accommodation market, Luxair Luxembourg Airlines will join an extensive global community of airlines that are members of the Hotelbeds scheme. Customers will then have access to a selection of 7,000 hotels in over twenty European destinations operated by the company.

Customers will be able to access this new booking platform via the Luxair Luxembourg Airlines website to book their dream holidays (flight & hotel) at competitive prices.

A wide range of hotels in all categories will be available exclusively for Luxair Luxembourg Airlines customers via our [www.luxair.lu](http://www.luxair.lu) website. This new product perfectly complements our popular Metropolis range that is available at our vast network of partner travel agencies.

The “Luxair City Break” product allows Luxair Luxembourg Airlines to provide greater flexibility and choice to better meet customer expectations.

Luxair is still the natural choice for travellers in the Greater Region seeking direct and swift links to major European destinations, due to its onboard service with no hidden costs or nasty surprises.
